

## Series on Romans for Airdrie Baptist Church, Autumn 2021

### Session 7. Romans 9-10

#### Israel's Judgment

This session and the next cover three chapters that discuss the consequences of the Gospel for the nation of Israel and the Jewish people.

Having discussed the Law of the Jews as it pertains to redemption through faith in Christ, the idea could easily arise that Israel is now a spent force. They received the Law, which was intended to shine a light on their need for righteousness through faith, but they squandered their chance to be justified under the Law's schooling. Does this condemn the children of Abraham to the "waste basket" of God's plan? Are they a failed experiment? Once again *me genoito!* May that never be!
